#### GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California: riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the source of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to 1) store water for later use 2) divert water which originates in a different watershed 3) divert water released from storage, or 4) divert return flows from groundwater use.

An appropriative right is required for use of water on non-riparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement:

(1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriation of Water in California.

Further water right information and additional copies of this form can be obtained at [www.waterrights.ca.gov](http://www.waterrights.ca.gov).

**2002,2003,2004**

5/24/05

## 2. Water quality and wastewater reclamation

- a. Are you now or have you been using reclaimed water from a wastewater treatment facility, desalination facility or water polluted by waste to a degree which unreasonably affects such water for other beneficial uses? YES \_\_\_\_\_ NO X
- b. If you are claiming credit due to the substitution of reclaimed water, desalinated water or polluted water in lieu of a claimed pre-1914 appropriative right under section 1010 of the Water Code, please show amounts of reduced diversions and amounts of substitute water supply used:

Amount of reduced diversion:

Year \_\_\_\_\_ (AF/MG) Year \_\_\_\_\_ (AF/MG) Year \_\_\_\_\_ (AF/MG)

State the type of substitute water supply:

Amount of substitute water supply used:

Year \_\_\_\_\_ (AF/MG) Year \_\_\_\_\_ (AF/MG) Year \_\_\_\_\_ (AF/MG)

I have data to support the above surface water use reductions due to the use of a substitute water supply. YES \_\_\_\_\_ NO \_\_\_\_\_

## 3. Conjunctive use of surface water and groundwater

- a. Are you now using groundwater in lieu of surface water? YES \_\_\_\_\_ NO X
- b. If you are claiming credit due to the substitution of groundwater for a claimed pre-1914 appropriative right under section 1011.5 of the Water Code, please show the amounts of groundwater used:

Year \_\_\_\_\_ (AF/MG) Year \_\_\_\_\_ (AF/MG) Year \_\_\_\_\_ (AF/MG)

I have data to support the above surface water use reductions due to the use of groundwater. YES \_\_\_\_\_ NO \_\_\_\_\_

I understand that it may be necessary to document the water savings claimed in "F" above if credit under Water Code sections 101 a and 1011 is sought in the future.

I declare that the information in this report is true to the best of my knowledge and belief.

## GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the sources of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, water previously stored by others, return flows from use of groundwater, or other "foreign" water to the natural stream system.

An appropriative right is required for use of water on non-riparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914, new appropriators have been required to obtain a permit and license from the State. Appropriative rights can be granted to waters "foreign" to the natural stream system.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users as set forth in Water Code section 5100 with specific exceptions. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversions, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include: (1) Statements of Water Diversion and Use, (2) Information Pertaining to Water Rights in California, and (3) Appropriative Rights in California.

April 29, 2005

State Water Resources Control Board  
Division of Water Rights  
P.O. Box 2000  
Sacramento, CA 95812-2000

Dear Chief Steven Herrera

Enclosed please find the following documents: Supplemental Statement of Water Diversion Use; City of Brawley Statement on Water Conservation Program; Water Waster Letter and photo example; and a Water Conservation pamphlet mailed to Residents.

If you have any questions please contact me at (760) 344-2698.

Sincerely

Fernando Soto  
Water Treatment Plant Supervisor

April 2005

The City of Brawley's current Water Conservation Program consist of providing residents with water conservation pamphlets and supplying water saving devices such as shower heads and water timers to residents. The City also identifies water wasters by mail, which includes a photo, location date and time. Enclosed is a sample of our water conservation pamphlet and also a letter that was mailed to a resident for water wasting.

October 21, 2004

Resident  
682 South 16<sup>th</sup> Street  
Brawley, CA 92227

The City Public Works Department Staff has noticed that your yard watering practices at 682 16th Street are resulting in excessive and unnecessary water waste and damage to the City surface improvements. The pictures enclosed were taken on October 18, 2004.

Wasting water is everyone's business, but it is more important to the City because we happen to have a combined sanitary sewer and storm drain system. This means that storm runoff as well as water from excess outdoor watering that reaches the gutter, ends up at the City's wastewater treatment plant. Now it must be treated again as wastewater (sewage) before it can be discharged into the New River. This creates an additional and unnecessary expense to the City. In addition the City's Water Treatment Plant is at 80% capacity during summer months. Reducing excessive water usage will prolong the treatment facility's ability to produce reliable, safe and healthful drinking water to everyone in the City.

Your assistance is requested in curtailing unnecessary outdoor water use. Please oversee your yard watering such that none reaches the street. Current City Ordinance indicates that "It shall be unlawful and a misdemeanor for any person to run or drain or allow to run or drain any water onto or into any street or alley in the City".

Your cooperation in eliminating outdoor water waste is requested. The attached Conservation pamphlet contains tips as to how you can conserve water. Please call David Arvizu @ (760) 351-7183 if you need additional information regarding this request.

Sincerely,

Ruben Mireles  
Superintendent of Operations

IF NAME/ADDRESS/PHONE NO. IS WRONG OR MISSING, PLEASE CORRECT.

SOURCE: MANSFIELD AND BRYANT CANALS

TRIBUTARY TO: CENTRAL MAIN CANAL

COUNTY: IMPERIAL

DIVERSION

WITHIN: NE1/4 OF NW1/4 SECTION 05, T14S, R14E, SBB&M.

INSTRUCTIONS: Please complete Items A, B and C. Item D should be completed if you replaced all or part of your regular water supply with reclaimed or polluted water. RETURN THIS FORM BY JULY 1, 1989. (Additional information on reverse side of this form.)

- A. Amount of Use - Fill in the amount of water used each month. If monthly and annual use are not known, check the months in which water was used.
- Amounts below are: ☐ Gallons ☒ Acre-feet ☐ (other)

	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Total Annual
1986	391.2	340.8	501.6	572.2	799.6	1005.8	772.6	848.8	780.4	698.4	468.4	442.0	7,621.8
1987	460.8	544.6	527.6	672.8	786.4	711.0	946.2	849.8	882.4	625.6	327.8	279.6	7,614.6
1988	224.8	241.0	555.0	571.4	643.0	711.0	841.6	744.8	556.0	562.6	302.8	252.0	6,206.0

- B. Purpose of Use - Specify number of acres irrigated, stock watered, persons served, etc.

Irrigation N/A

Stockwatering N/A

Domestic 18,228 Population served

Other (specify) \_\_\_\_\_

- C. Changes in Method of Diversion - Describe any changes in your project since your previous statement was filed. (New pump, enlarged diversion dam, location of diversion, etc.)

No change

- D. If part of the water listed in Part A consists of reclaimed or polluted water, please indicate the annual amounts of reclaimed or polluted water in the space below.

None

## GENERAL INFORMATION PERTAINING TO WATER RIGHTS IN CALIFORNIA

There are two principal types of surface water rights in California. They are riparian and appropriative rights.

A riparian right enables an owner of land bordering a natural lake or stream to take and use water on his riparian land. Riparian land must be in the same watershed as the water source and must never have been severed from the source of supply by an intervening parcel without reservation of the riparian right to the severed parcel. Generally, a riparian water user must share the water supply with other riparian users. Riparian rights may be used to divert the natural flow of a stream but may not be used to store water for later use or to divert water which originates in a different watershed, or return flows from use of groundwater.

An appropriative right is required for use of water on nonriparian land and for storage of water. Generally, appropriative rights may be exercised only when there is a surplus not needed by riparian water users. Since 1914 new appropriators have been required to obtain a permit and license from the State.

Statements of Water Diversion and Use must be filed by riparian and pre-1914 appropriative water users. The filing of a statement (1) provides a record of water use, (2) enables the State to notify such users if someone proposes a new appropriation upstream from their diversion, and (3) assists the State to determine if additional water is available for future appropriators.

The above discussion is provided for general information. For more specific information concerning water rights, please contact an attorney or write to this office. We have several pamphlets available. They include:

"Statements of Water Diversion and Use"  
"Information Pertaining to Water Rights in California"  
"Water Rights for Stockpounds Constructed Prior to 1969"  
"Appropriation of Water in California"

## Statement of Water Diversion and Use

- A. Name of person diverting water City of Brawley  
Address City Hall, Brawley, California 92227
- B. Name of body of water at point of diversion Mansfield Canal, Delivery 26 & 27; Bryant Canal Delivery 59. Tributary to central main canal
- C. Place of diversion NE 1/4 NW 1/4, Section 5, Township 14S, Range 11E, SE 24M, Imperial County, or locate it on sketch of section grid on reverse side with regard to section lines or prominent local landmarks.  
Mansfield 26 & 27, 20 cu.ft. per sec. combined
- D. Capacity of diversion works is Bryant Del 59, 6 cu.ft. per sec. sub: feet per second

Capacity of storage reservoir 47.7 mg gallonsState quantity of water used each month in gallons xxxxxxxxxxxx

	Jan.	Feb.	Mar.	Apr.	May	June	July	Aug.	Sept.	Oct.	Nov.	Dec.	Annual
1964	89.4	94.1	119.0	147.2	177.4	206.8	256.7	235.8	198.9	164.5	100.9	83.3	1,864.9

If monthly and annual use are not known, check months in which water was used. State extent of use in units, such as acres of each crop irrigated, average number of persons served, number of stock watered, etc. 15,350 population

Maximum annual water use in recent years has been 1,860 mg. gallonsMinimum annual water use in recent years has been \_\_\_\_\_ gallons

Type of diversion facility: Gravity X, Pump \_\_\_\_\_  
Method of measurement: weir X, flume \_\_\_\_\_, electric power meter \_\_\_\_\_  
water meter \_\_\_\_\_, estimate \_\_\_\_\_.

E. Purpose of use (what water is being used for) City, domestic & lawn irrigation

F. General description or location of place of use (use sketch of section grid on reverse side if you desire) \_\_\_\_\_

G. Year of first use as nearly as known 1908

H. Name of person filing statement Howard H. Houch  
Position Assistant City Engineer Organization City of Brawley  
Address City Hall, Brawley, California 92227

I certify that the foregoing statements are true and correct to the best of my knowledge and belief.
